

LINDNER & FISCHER

Fahrzeugbau GmbH

Gülle- fahrzeuge

Lindner & Fischer – offers various types of trailers and bodies for the transport of slurry. Our trailers and bodies are designed for the transport of slurry only, but not for spreading of slurry. Our tanks can be made as vacuum/pressure tank and can be offered either galvanized, with inner lining or complete made of stainless steel. We offer our slurry trailers as 2- and 3-axle drawbar-, semi- and centre axle trailer. Besides, we offer our bodies mounted on 2-, 3- and 4-axle rigid truck chassis. Even as hook-lift execution are our slurry tanks available. Galvanizing, two-component paint and cavity sealing protects our trailer over years against any rust. Many other options are possible upon request, which enables you to get a customized product, according to your individual requirements.

Type	GSA 27 - 32	GAH 18 - 24	GZA 12 - 24	GAC / GWE 10 - 20
Execution	2-axle / 3-axle Semitrailer	2-axle / 3-axle Draw-bar trailer	2-axle / 3-axle Centre axle trailer	Hooklift / swap container BDF
Material	steel / stainless / aluminum	steel / stainless / aluminum	steel / stainless / aluminum	steel / stainless / aluminum
Permissible GVW, kg	30 000 - 35 000	18 000 - 24 000	16 000 - 24 000	10 000 - 20 000
Tareweight, kg	5 400 - 7 800	3 800 - 5 400	3 500 - 5 800	1 500 - 2 800
Payload, kg	27 000 - 30 000	14 000 - 18 600	16 000 - 18 200	10 000 - 22 000
Volume, m ³	25,0 - 33,0	14,0 - 22,0	12,0 - 22,0	10,0 - 20,0
No. of axles	2 till 3	2 till 3	2 till 3	
Vacuum pump	x	x	x	x
Displacement pump	x	x	x	x
Size of tires	385/65 R22,5	425/65 R22,5	560/60 R22,5
